

# HushFrame Raft Connectors

## VIBRATION ISOLATING STRUCTURAL CONNECTORS

For controlling the movement of sound through walls, floor/ceiling assemblies, and associated components of buildings.

Manufactured utilizing ViBridge sound control technology resulting in a Strong Silent Type of Raft connector.

## 400 Series – Raft Connector Patent Pending

A general utility connector that can be installed vertically, horizontally, or in any manner necessary to isolate and mount utilities and mechanical equipment, box ventilation ducts, attach to joists and rafters to create dropped ceilings to cover plumbing and sprinkler lines, or attach to studs to create stand-off wall framing to accommodate added thermal insulation.

**Dimensions: 7-7/8" x 2" x 1-1/8"**

- Adds 18 STC points to standard wall assembly
- Adds 14-18 IIC points to standard floor/ceiling assembly
- Class 'B' Fire Rated
- Structural load limit is 50 lbs. longitudinal shear
